

Dear Charlotte Dunning Families:

We are excited to introduce you to our new Dunning C.A.R.E.S program. Here at Dunning, we feel strongly that our students, staff, and families all understand how important it is to be kind and caring, appreciate our differences, treat others the way we want to be treated, try our best at everything we do, and be safe at all times.

By focusing on the five simple words of Caring, Appreciation, Respect, Effort, and Safety, we feel that all can make positive contributions to our school community.

We look forward to recognizing students for showing these core values, and hope that you will join us as we strengthen the positive behavior and interactions that we already have with one another.

Sincerely,  
The Dunning Staff
