

October 2022

Dear Students and Families,

For all students taking Advanced Placement courses this year, with the culminating AP exams in May, there are some important procedures of which to be aware. All students taking an AP course at Framingham High School have been given a "join code" to enroll in the corresponding AP class section on the College Board website. By joining your AP class section on the College Board website, you are also registering to take the AP exam. All students who have joined their AP classroom will have an exam ordered for them.

### 2022 - 2023 AP Exam Fees

Exam fees will be collected at a later time through City Hall Systems. You will receive a future notification about the cost of the exam and when the payment system opens up.

**\*\*\*Important\*\*\* Any changes that occur after the final order deadline of November 15th (including registering late, dropping the course, or deciding not to take the AP exam) will incur a \$40 fee per exam, as determined by the College Board (\$15 for students receiving Free/Reduced Lunch). If you are not intending to take the AP exam, you must inform Ms. Monaco no later than November 1st.**

### Other Considerations

If the exam fees will be a significant burden for your family, please reach out to your teacher or Ms. Monaco directly when it is time to make your payment.

In the case that a student is seeking accommodations on an AP exam and they have not already been approved by the College Board, requests for accommodations for the AP exams must be made by **Friday, January 18th, 2023**. These accommodation requests go through your student(s) School Counselor.

Please do not hesitate to reach out with any questions or concerns you may have.

Sincerely,

Carolyn Banach  
Principal
