CDEP DUAL ENROLLMENT AT MASSBAY

Course Descriptions:

Contemporary Nutrition

Examines nutritional principles. A study of the main nutrients, proteins, carbohydrates, lipids, vitamins and minerals is made. Dietary recommendations for optimal health for different age groups are covered and used to design diet plans. Modern society's afflictions due to nutritional excesses or deficiencies are covered, such as obesity, diabetes, heart disease, cancer, anorexia nervosa, and bulimia. Emphasis is given to the use of sound dietary practices as the means for preventing disease.

Drugs and Society

Examines drug use, abuse, and regulation from a social and public health perspective. Emphasizes the social, economic, political, and legal issues concerning drug use and abuse, drug policy, drug enforcement; the impact of drugs on individuals, communities, and society.

Medical Terminology

This course presents construction of medial terms through common word roots, prefixes, and suffixes. Students will learn to master medical vocabulary through classroom instruction.

Principles of Marketing

Examines contemporary marketing principles, concepts, and managerial practices. Studies the marketing environment, consumer behavior, marketing, research, and information systems. Analyzes the marketing mix in terms of product planning and development, distribution management, pricing strategies, and promotional practices. Focuses attention on the social and legal responsibilities of marketing and consumerism. Examines the nature and importance of international and global marketing. Case problems and current issues are discussed and analyzed.

Scripting

This course introduces fundamental programming concepts. Students learn to design and implement platform- independent scripts. Students will learn scripting for system-administration, database communication, and to provide user interactivity through the use of multimedia resources. By the end of the course students will have a concrete understanding of programming in several important scripting contexts.
