DR. GRACE WAI NAMED DIRECTOR OF ELEMENTARY EDUCATION

Dr. Robert A. Tremblay, Superintendent of Schools, and the Office of Teaching and Learning of the Framingham Public Schools are pleased to announce the appointment of Dr. Grace Wai as the Director of Elementary Education for the Framingham Public Schools.

Dr. Wai has most recently worked in Framingham Public Schools as the Director of Curriculum and Instruction where she established an instructional focus on student thinking and reasoning, connecting rigorous content practices, 21st Century college and career readiness skills, and leading district “learning walks” to collect data on instructional practice.

Under the direction of Dr. Sonia Diaz, Assistant Superintendent for Teaching & Learning, Grace will join Anne Ludes, Director of Secondary Education, in the newly formed Office of Teaching and Learning to craft a powerful vision for instructional excellence for all students and will build systems of support for school leaders.

Dr. Wai attended Memphis State University and Boston College where she received a Doctor of Education degree.
