

IJOA-R-3 - FIELD TRIP EMERGENCY FORMS

When planning overnight, out of state, and overseas field trips, district personnel must take into consideration the needs of students with health concerns. Prior to leaving on an out of state or overnight field trip, the parent/guardian of each participating student will be provided with and complete and sign the Student Health/Emergency Form. The forms will be reviewed by teacher/chaperones prior to departure and a plan to meet students health needs will be developed by the chaperones and parents. For the duration of the trip, teacher/chaperones will have ready access to the forms. Participating students will carry a copy of the form at all times.

Forms are available through the schools.
