Help Desk Document - BYOD Network Access

How to Login to BYOD

- 1) If you have previously connected to **BYOD** on your personal device, you must forget (remove) the **BYOD** network from this device before proceeding.
- 2) On your device go to select a wireless network and Choose **BYOD**.
- 3) Once connected, your browser should open to the captive web portal page will load and there will be a place to enter your credentials

A screenshot of the Framingham Public Schools BYOD login page. On the left is the school department logo. The main heading is "Framingham Public Schools BYOD". Below this is the section "Existing Users" with the instruction "Log in for secure Internet access." There are two input fields: the first is labeled "username" and the second is a password field with masked characters. Below the password field is a small note: "Logging in indicates you have read and accepted the Use Policy." To the right of the password field is a "Log In" button with a yellow arrow icon. At the bottom right of the page are three yellow dots.

a)

- 4) **Staff Members** - Enter your username and password. **You do not need to "@framingham.k12.ma.us"**
- 5) **Students** - Enter student\ before your username

A screenshot of the Framingham Public Schools BYOD login page, similar to the one above but for students. The heading is "Framingham Public Schools BYOD". The "Existing Users" section has the instruction "Log in for secure Internet access." The first input field is pre-filled with "Student\" followed by a text box for the username. The second field is a password field with masked characters. Below the password field is the same note: "Logging in indicates you have read and accepted the Use Policy." To the right is a "Log In" button with a yellow arrow icon. At the bottom right are three yellow dots.
