FOR IMMEDIATE RELEASE
AUGUST 29, 2016

FHS Football Investigation Concluded

Framingham Public Schools has concluded its investigation into the events of the Framingham High School football practice on August 25th that resulted in injuries to some of our student-athletes. The coaches will return to practice today. Interim Athletic Director Paul Spear will work with coaches to identify drills and activities that are appropriate for the condition of the turf field.

It is standard operating procedure of this district to review any incident that results in student injuries. Our first priority, as always, is to do our best to ensure the safety of students in our care. We are grateful for the cooperation of our students and staff as we maneuvered through this uncommon situation, and we appreciate the Framingham community for their continued support for our athletic programs.
